

Personal/Individual Videography Services

H Mueller Design provides a wide range of personal video services including A Day in the Life videos, special events like birthdays, pet videos, video memoirs and video family trees. If you are looking for a service that is not described below, please do contact us - chances are that we can provide what you need.

Day in the Life Video

It is amazing how fast children grow up. Capturing special events on video like birthdays, or simply a day at the park, are wonderful memories.

Kids love to watch themselves doing stuff, especially if it looks like they're having fun doing it! Moms and dads, grandparents and friends get a pretty good kick out of these productions as well.

Don't forget the pet in your life!

Video Memoirs/Family Trees

Many people regret that they don't know more about their parents or grandparents. Having the story of a senior person in your life on video will be a treasured possession, valued by yourself and future generations.

You can create an entire video family tree by putting together the individual video memoirs.

Video Vignettes

So your family and friends live elsewhere! A fun way to stay in touch is to create a video vignette and DVD that you can mail to your loved ones.

A video vignette is a short 15 - 30 minute recording. You can talk "off the cuff" or bring notes. You can also bring any props that you might want to talk about. If you want to include one or two photos, no problem - we will scan those and return the originals with your DVD. Do you need your pet to sit on your lap during the videoshoot, no problem either.

Family Video Fixing

Often family events turn out to be memorable—a holiday, an anniversary dinner, a wedding reception, and so on. You have a collection of photos and videos taken by friends or family. We can put these together on a DVD for you. Some things are impossible to fix but what we can we will. Doing a professional edit with accompanying music can do wonders.
